- Windermere School: Jakub Kryś

Natalia Lielbriedis Woźniak

"I am seen as an ambitious girl who always want to achieve goals she set herself. In the future I would like to become a surgeon because I am really interested in science and as far as I remember I always wanted to know how the human body works."

Hobbies: - traveling,

- learning foreign languages (I speak Polish, English, German and I know a little Spanish),
 - for 8 years I am training horse riding,
- I used to train synchronized iceskating before my knee got injured)
 For 2 years I have my own blog about fashion and design

Julia Dróżdż

"In future I would like to be an astronomist and work for NASA or study medicine and work in WHO or UNICEF"

- My biggest passion is sailing I have sailed for four years and since two years I represent Poland in The Tall Ships Races. I am the owner of Certificate of Island Skipper.
 - I love horses and horse riding and I hope that in Adcote I will be able to develop my riding skills.
 - Two weeks ago I graduated from Music School I have played piano for almost six years and I really enjoy it.
- In my free time I love meeting with my friends. We laugh a lot, sleep in tents, go to the seaside and have fun.

Kornelia Śpiewak

- my hobbies include reading, drawing (especially sketching), horse riding and writing (one of my poems won Grand Prix in III Ogólnopolskim Literackim Konkursie SMS but I also write prose)
- my interests include Psychology, Medicine, Science (Biology and Chemistry)
- I'm keen on learning languages, I'm learning English, Spanish and Japanese on my own

• I love trying new things

 my favourite books are Metro 2033 by Dmitry Glukhovsky, The Hunger Games by Suzanne Collins and Game of Thrones by George R. R. Martin

Małgorzata Kasprzak

"In the future, I would like to combine my two passions: Economics and Science by studying "Bioprocessing of New Medicines (Business and

- I am keen on running and horse riding.
- I enjoy playing cello and singing. Being a musician is a part of my life. I've been playing cello for 10 years.
- I am interested in Psychology, Anatomy and Oxford Debates. In Bruton School for Girls I would like to continue my development in debating
 - I am very sociable. Meeting new people and discovering their ideas is always an exciting experience for me.

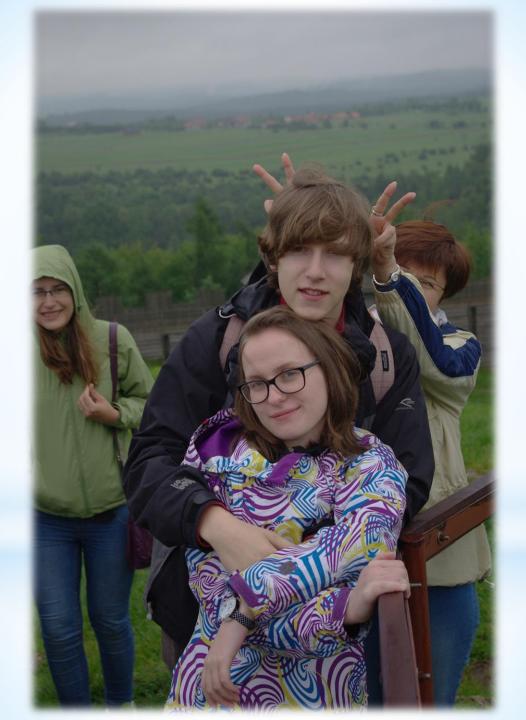

Sebastian Mitel

"In the terms of science, I believe is Albert Einstein's mind: "Imagination is more important than knowledge".

- In high school I started learning Na'vi constructed language created by Paul Fromner for the film "Avatar".
- Since childhood have been excited about melee and historical weapon. In November I began training Polish sabre fencing. I hope in Concord College I will be able to fence also.
- Through my live I have training karate, judo, volleyball, ballroom dance and fencing. I would like to yet play tennis, shoot with bows and rifles.
 - I spend a lot of time reading sensational and Fantasy novels, yet I like to train my imagination.

Jakub Bartoszewski

- I enjoy playing organ at Music School and harpsichord at the Early Music Ensemble "Incalzando". I am really glad that I will be allowed to develop my musical skills at Cranleigh School.
- I am really interested in science my biggest passion are certainly life sciences and especially ecology. Also I am keen on chemistry and astronomy - recently I was 7th in Poland at Astronomical Competition "Astrolabium".
- I am a great afficionado of plants so far I have had aubergine, kiwano cucumber, drosera, avocado, Dahlia, pampas grass, corn and two huge potatos.

Nina Handzewniak

"I have two passions - discovering and changing the world. My biggest love is biology. But I am also interested in physics, philosophy, literature and chemistry. I like spending my free time working for the student's council. I consider taking care of our Earth as a duty, so I am kind of eco-maniac. I never go anywhere without my third eye camera. One day I will become a doctor."

Michał Zarzecki

"In the future, I would like to study medicine at University College London. My dream is to become a cardiothoracic surgeon after undergraduate studies. I have chosen this job because I would like to help ill people and since I remember I always wanted to become a surgeon."

Physics

- Participation in biological projects such as "Healthy Backs
 - Volunteering in Polish Red Cross

shooting

Kamil Szumilas

"I would like to study Business or Financial Law at the British university and work in the huge law company such as Baker &

- For 10 years I have been sport dancer and I represented Poland in many international competitions in Jazz and Modern dance categories,
- Month ago I graduated from Music School- for 4 years I have been playing alto saxophone and I hope
 - that I will play at the Langley School,
 - I love mountain climbing and travelling,
 - I am interested in Economics and History

Joanna Banasik

" I always look for new opportunities and chances. I think, that it is crucial to have the courage to undertake new challenges in life."

- I can speak English, French and German,
- I am a trained lifeguard, and I have received my certification in the USA, through the American Red Cross,
- In my free time I love strolling, walking, discovering new places, swimming and attending fitness classes
 I also play the piano and like reading good books and poetry.

Jakub Kryś

- I find Maths and Physics to be the most captivating out of all subjects, but Chemistry and History can be equally interesting for me,
- My other interests include aviation, tennis, snooker and wildlife documentaries.
- I would like to study a physical subject, especially astrophysics.

Magdalena Tyka

"I plan to be a biotechnologist to create or discover something what would help the environment or ill people."

- I just love nature! I spend a lot of time with my friends by lake or in the forest. We also ride a bike a lot and admire scenery of our beautiful area.
 - I am completely crazy about botany! I love reading about plants, photograph and classify them and observe their tissues. The most I like wild plants but I also raise some flowers on the balcony.
 - I am also interested in traveling, other cultures and popular science topics.
